

エンジン

This exploded view diagram illustrates the assembly of a 2-stroke engine. The components are numbered as follows:

- 1-10:** Upper engine components including the cylinder head (1), intake valve assembly (2, 3, 4), and various gaskets and seals (5-10).
- 11-14:** Piston and connecting rod assembly (11, 12, 13, 14).
- 15-20:** Lower engine components including the crankcase (15), crankshaft (16), and various gaskets and seals (17-20).
- 21-25:** Fuel system components including the carburetor (21), fuel filter (22), and fuel lines (23, 24, 25).
- 26-30:** Ignition system components including the spark plug (26), ignition coil (27), and distributor (28, 29, 30).
- 31-35:** Cooling system components including the water pump (31), impeller (32), and various gaskets and seals (33-35).
- 36-40:** Exhaust system components including the exhaust manifold (36), exhaust pipe (37), and various gaskets and seals (38-40).
- 41-45:** Various small components and fasteners (41-45).
- 46-50:** Additional components including a flywheel (46), a pulley (47), a belt (48), a spring (49), and a lever (50).
- 51-55:** Final assembly components including the engine housing (51), various gaskets and seals (52-55), and a flywheel (56).
- 56-60:** Final assembly components including the engine housing (56), various gaskets and seals (57-60), and a flywheel (61).
- 61-65:** Final assembly components including the engine housing (61), various gaskets and seals (62-65), and a flywheel (66).
- 66-68:** Final assembly components including the engine housing (66), various gaskets and seals (67-68), and a flywheel (69).
