

丸山製作所

This exploded perspective view illustrates the assembly of a medical device, likely a catheter or probe. The components are numbered as follows:

- 1**: Main cylindrical body or housing.
- 2**: A flexible tube or cable with a connector at the top.
- 3, 4**: Small components, possibly O-rings or seals, located near the top of the main body.
- 5**: A U-shaped tube or loop component.
- 6, 7**: Small components, possibly O-rings or seals, located near the bottom of the main body.
- 8**: A small cylindrical component, possibly a connector or plug.
- 9**: A small component, possibly a plug or seal.
- 10, 11, 12**: A series of small components, possibly a connector or plug.
- 13**: A small cylindrical component, possibly a connector or plug.
- 14**: A small cylindrical component, possibly a connector or plug.
- 15**: A long, thin tube or cable.
- 16**: A long, thin tube or cable, similar to 15.
- 17**: A long, thin tube or cable, similar to 15.
- 18**: A small component, possibly a plug or seal.
- 19**: A small component, possibly a plug or seal.
- 20**: A small component, possibly a plug or seal.
- 21**: A small component, possibly a plug or seal.
- 22**: A small component, possibly a plug or seal.
- 23**: A small component, possibly a plug or seal.
- 24**: A small component, possibly a plug or seal.
- 25**: A long, thin tube or cable, similar to 15.
- 26**: A small component, possibly a plug or seal.
- 27**: A small component, possibly a plug or seal.
- 28**: A small component, possibly a plug or seal.
- 29**: A small component, possibly a plug or seal.
- 30**: A small component, possibly a plug or seal.
- 31**: A small component, possibly a plug or seal.
- 32**: A small component, possibly a plug or seal.
- 33**: A small component, possibly a plug or seal.
- 34**: A small component, possibly a plug or seal.
- 35**: A small component, possibly a plug or seal.
- 36**: A small component, possibly a plug or seal.
