

This exploded view diagram illustrates the assembly of a mechanical device, likely a portable pump or sprayer. The components are numbered as follows:

- 1**: The main rectangular frame or housing.
- 2**: A large, curved protective shield or deflector.
- 3**: A smaller curved shield or deflector.
- 4**: A vertical support post or frame member.
- 5**: A castor wheel for mobility.
- 6**: A pin or fastener used to attach the main frame to the support post.
- 7**: A bracket or plate for mounting the wheel.
- 8**: A horizontal handle or lever.
- 9**: A pin or fastener for the handle.
- 10**: A pin or fastener for the handle.
- 11**: A small cylindrical component, possibly a roller or guide.
- 12**: A horizontal support bar or beam.
- 13**: A pin or fastener for the main frame.
- 14**: A pin or fastener for the support bar.
- 15**: A horizontal support bar or beam.
- 16**: A pin or fastener for the main frame.
- 17**: A pin or fastener for the support bar.
- 18**: A rectangular plate or cover.
- 19**: A pin or fastener for the main frame.
- 20**: A pin or fastener for the main frame.
- 21**: A small rectangular plate or bracket.
- 22**: A pin or fastener for the plate.
- 23**: A pin or fastener for the plate.
- 24**: A pin or fastener for the plate.
- 25**: A horizontal support bar or beam.
- 26**: A pin or fastener for the support bar.
- 27**: A pin or fastener for the support bar.
- 28**: A pin or fastener for the support bar.

The diagram shows the relative positions and assembly sequence of these parts, with dashed lines indicating the alignment and connection points.
